PROFILE

I'm a Front-End Developer with a background in **Computer Engineering and Automatic Control**. I build modern, responsive web interfaces using **HTML, CSS, JavaScript, Bootstrap, and Angular**. I have strong problem-solving skills, a solid understanding of programming fundamentals, and a passion for creating user-focused digital solutions. I'm detail-oriented, adaptable, and always eager to learn new tools and technologies.

EDUCATION

Faculty of Engineering ,Tanta University

Bachelor Of Engineering

- I have a **Bachelor's degree in Computer Engineering and Automatic Control**, with a **Very Good** grade. I have a strong passion for technology and automation, and I am eager to apply my skills and knowledge to contribute to your esteemed organization.

Digital Egypt Pioneers Initiative – React Frontend Track

- **Ministry of Communications and Information Technology (MCIT), Egypt** *Graduated from the Digital Egypt Pioneers Initiative, specializing in React Frontend Development.*

PROFESSIONAL EXPERIENCE

Freelancer

2025 – Present

- Freelance Front-End Developer on Upwork and Khamsat – worked with clients to design and develop responsive web interfaces using HTML, CSS, JavaScript, and Angular. Delivered custom solutions, improved UI/UX, and ensured high performance across devices.

Ishool instructor

2024 – 2025

- Worked as an Instructor at iSchool, teaching Python programming to kids and teenagers, and guiding them through various hands-on projects such as simple games, interactive applications, and beginner-level AI projects.

Rento Car

- Developed a responsive car rental web application using **HTML, CSS, JavaScript, and Bootstrap**, **ReactJs**, **Tailwind**, focusing on clean UI design, user-friendly navigation, and mobile compatibility. The project includes features such as **car booking, search functionality, and detailed car information pages** to enhance the user experience.

RUDS-System

- Build a modern **CRUDS** management system with features to add, edit, delete, view, search, and filter cars and rental records. Use **JavaScript, HTML, CSS**, and **Bootstrap**. Make it responsive and portfolio-ready.
