PROFILE

I am a Front End Developer, my academic background study in Computer Engineering and Automatic Control with a strong passion for software development and a particular interest in frontend technologies. Solid foundation in programming principles, problem-solving, and system design, gained through academic studies and hands-on projects. Focused on building modern, responsive web interfaces using technologies like HTML, CSS, JavaScript, React, and Bootstrap. Actively seeking to expand expertise in the software development lifecycle and contribute to impactful, user-centered digital solutions. Known for being detail-oriented, adaptable, and eager to learn new tools and frameworks.

EDUCATION

Faculty of Engineering ,Tanta University

2017 – 2022

Bachelor Of Engineering

- I have a **Bachelor's degree in Computer Engineering and Automatic Control**, with a **Very Good** grade. I have a strong passion for technology and automation, and I am eager to apply my skills and knowledge to contribute to your esteemed organization.

Digital Egypt Pioneers Initiative – React Frontend Track

11/2024 – 05/2025

- **Ministry of Communications and Information Technology (MCIT), Egypt** Graduated from the Digital Egypt Pioneers Initiative, specializing in React Frontend Development.

COURSES

HTML & CSS Course – Udemy & Coursera

Successfully completed HTML & CSS courses on Udemy and Coursera, gaining a solid foundation in web development.

JavaScript Course – Udemy & Coursera

Successfully completed JavaScript courses on Udemy and Coursera, gaining strong skills in modern JavaScript development.

React - Udemy

Completed "React - The Complete Guide (incl. React Router & Redux)" course by Maximilian Schwarzmüller on Udemy.

Next.JS & Redux - Udemy

Completed an advanced open-source course on Next.js and Redux, gaining practical experience in building full-stack React applications with server-side rendering and state management.

SKILLS

HTML5

- Proficient in structuring web pages using modern HTML standards.

Bootstrap

- Proficient in building responsive designs using Bootstrap framework.

Next.js & Redux

- Used Next.js and Redux to build fast, scalable React applications with efficient state management.

CSS3

- Skilled in designing responsive and visually appealing layouts using CSS, Flexbox, and Grid.

React

- Adept at building dynamic and reusable user interfaces with React.

Other skills

- CS50 [Harvard University]
- C++ : [Fundmental]
- OOP : [Object-Oriented Programming]
- Data Structures and Algorithms

JavaScript

- Experienced in developing interactive web applications using JavaScript (ES6+).

TypeScript

- Fundamentals, Mahara-Tech 2024

Git & Github

- Version control system and Platform

PROFESSIONAL EXPERIENCE

Freelancer

2023 – Present

- Freelance Front-End Developer on Upwork and Khamsat — worked with clients to design and develop responsive web interfaces using HTML, CSS, JavaScript, and React. Delivered custom solutions, improved UI/UX, and ensured high performance across devices.

Ishool instructor

2024 – present

- Worked as an Instructor at iSchool, teaching Python programming to kids and teenagers, and guiding them through various hands-on projects such as simple games, interactive applications, and beginner-level AI projects.

Code Academy as a instructor

2022 – 2024

- Worked as an Instructor at Code Academy, teaching front-end development to adults. Covered HTML, CSS, JavaScript, and React, and guided students through practical projects to build responsive and interactive web applications. Developed strong mentoring, communication, and curriculum design skills while supporting students' progress.

SouqTech – E-commerce

- SouqTech is a responsive and interactive frontend e-commerce website specialized in selling electronic devices such as smartphones, tablets, and smart TVs. The platform offers users a smooth shopping experience with features like product browsing, detailed product pages, shopping cart management, and a clean, mobile-friendly interface.

Bakery – Restaurant Website [↗](#)

- Developed a fully responsive and interactive restaurant website to showcase menu items, special offers, and online reservations. Implemented a dynamic user interface using React and Bootstrap for a modern design. Enhanced user experience with smooth navigation, animations, and interactive elements.

Rento For Rent Cars [Graduation project from DEPI] [↗](#)

- Developed a responsive car rental web application using **HTML, CSS, JavaScript, and Bootstrap**, focusing on clean UI design, user-friendly navigation, and mobile compatibility. The project includes features such as **car booking, search functionality, and detailed car information pages** to enhance the user experience.

SOFT SKILLS

- Strong communication and interpersonal skills
- Teamwork and collaboration
- Problem-solving and critical thinking
- Continuous Learning
- Self-Motivation
- Management
- Quick Learner
- Agile
- Presentation & Collaboration
